

On behalf of the administration of the City of Middleburg Heights and Middleburg Heights City Council, we thank the 26,000 people who flocked to Southland Shopping Center for the 2016 Middleburg Heights "Summer in the City" community festival.

Thanks to our residents and business sponsors who made the event possible. The Summer in the City was successful in bringing together civic groups, community leaders, residents and businesses to foster an appreciation of everything Middleburg Heights has to offer.

People from Middleburg Heights and surrounding northeast Ohio communities attended the event to enjoy the largest parade in Middleburg Heights history, live music from top local bands, games and entertaining contests, a classic car show, and a spectacular thirty-minute fireworks show.

Special thanks goes to the City Club of Middleburg Heights for their herculean effort in planning and organizing the event, and to our service, police and fire departments for their assistance and participation throughout the event.

Community response to the event was overwhelmingly positive; therefore, we look forward to an even better Summer in the City festival in 2017 for our residents and businesses to enjoy.

Gary W. Starr, Mayor
City of Middleburg Heights
